

BELOW IS A QUICK REFERENCE GUIDE OF ON SPORTS UNIFORM STANDARDS AND ADDITIONAL OPTIONS.

FABRIC TYPES

Pro-Brite Mesh - The look is shiny or glossy with tiny mesh holes throughout. 100% nylon 8oz in weight/100 Denier. 95% of our competitors use 100% polyester, 5.5oz in weight, and 70 Denier. Inks adhere better on nylon, leading to a longer-lasting, more durable garment.

Pro Mesh - same as Pro-Brite without the shiny, glossy appearance. 100% nylon 8 ounces in weight/100 Denier.

Dazzle Cloth - 100% nylon. 8 ounces in weight / 100 Denier. The look is shiny and almost silky in appearance with no holes in it. On Sports does not use this fabric in the Body of any Reverse Uniforms because it is too heavy and does not breath (no holes in fabric). On Sports uses this fabric mostly in the Pre-Game Gear, or Warm-Ups (Shooting Shirts and Snap Pants), in Panel inserts and/or stripes in the Reverse Game line, and for the Body of some of it's Game Day Uniforms (upon request). This fabric cannot be substituted in any of the Revere Gear Uniforms under any condition due to it's cost.

Note: The 3 above-mentioned fabrics have been chosen by On Sports due to reliability, superior quality, durability, and it's 100% nylon content. Nylon fabrics are ideal for Silkscreen inks, which increases the life span of our products. We have all seen uniforms with faded inks that appear worn and well used. This is usually due in combination of poor silk screening and the use of Polyester fabrics that are not ideally suited for printing. You may also find the same Polyester garment being covered with Twill, or Cloth, Lettering and numbers, but this has not proven to be durable nor comfortable, and lacks longevity in usage (A Key Selling Point). Most uniforms throughout the industry today are composed of 100% Polyester Lightweight Fabrics due to the inexpensive nature of the fabric content. At On Sports, we choose to operate with a higher standard and put our customers first... We are in the business of Quality, Service, Fit and Style.

UNIFORM DESCRIPTIONS
